

AFP Chicago Wants to Know...

HOW ARE YOU DOING IN THESE ECONOMIC TIMES?

JOIN THE AFP CHICAGO CAREERS IN TRANSITION GROUP

As jobless rates rise and economists forecast more tough times not only for the entire economy but also for our own organizations and perhaps even for our own employment.....AFP Chicago Chapter felt the need to not only develop a caring program for our members who might be experiencing transition, but to think strategically about the unique issues that might be facing our chapter in this current economic environment.

In order to best address the issues of fundraising in this economy, AFP Chicago will be presenting programs, speakers, discussions, and other activities to assist all of us with our organizational fundraising work. But we will also be looking particularly at how the economy is affecting individual AFP members, and offering sessions on how they can bounce back from sudden unemployment. Whether it means picking up new skills (such as interviewing skills), updating or re-positioning a resume, job coaching, proper business etiquette, or expanding your network.....we want to, as fellow professionals, help you to maximize your ability to rebound.

This is a chapter initiative created to proactively address current conditions. If you would be interested in meeting and discussing career transition issues, or discuss to how to better position yourself in the profession, please share the following information with us:
