

Chicago Chapter

May 1, 2009

Dear AFP Colleague,

The Nominating Committee of AFP – Chicago Chapter invites nominations for the Board of Directors with terms beginning January 1, 2010. Please take a few minutes to review the attached document which describes Board member selection criteria and responsibilities and give thought to nominating an outstanding individual for Board service.

Effective November 14, 2008, Directors are elected to one year terms and may serve a lifetime maximum of eight terms. Current Directors who want to be considered for re-election to an additional one-year term must nominate themselves by submitting a completed Call for Nominations form (see attached).

Because the Chapter is strongly committed to diversity, we especially encourage you to think about Board nominees who represent diversity in their cultures and lifestyles and/or who are employed in all types and sizes of organizations as well as those that serve a cross-section of Chicago's diverse communities.

Finally, we encourage you to evaluate your personal competencies and interests and nominate yourself if you are so interested. Before nominating someone other than yourself, we ask that you seek that person's agreement to be nominated and ask him/her to provide a comprehensive written summary of her/his prior service to AFP Chicago.

The Nominating Committee will review all nominations in accordance with the criteria that have been established for Board service (see attached), and a slate of nominees will be presented to Chapter members for election in December.

Strong leadership is a hallmark of the AFP Chicago Chapter and we seek highly qualified and highly committed members for service on the Board of Directors. We appreciate your participation in identifying outstanding professionals for this rewarding volunteer experience. If you have any questions, please feel free to contact either of us.

**Send complete nomination materials to the AFP Chicago office as soon as possible and no later than July 10, 2009.**

Sincerely,
